## Chairman's Notation

---

Although the number of entrants and entries were slightly down on last year, it is obvious the exhibition has gained acceptance with the membership of the society. The direct upload system coupled with Pay Pal for payment of fees all contribute to a user friendly event. The remote judging system allows us to utilize the experience and skills of many of our country judges. The "tyranny of distance" is no longer an issue for us. Congratulations to all those who gained acceptances and awards. The standard of accepted works was of a very high calibre. For those who were unsuccessful this year, please persevere with your photography as success will surely follow. We hope to see your entries once again in 2014.

Finally, on behalf of the Digital Division I would like to express my appreciation to all the participating judges and committee, for without your skills and dedication there could not be such an event.
